PRICE - LISTS AND DESCRIPTIVE LISTS
OF

PUGET - SOUND GROWN
GLADIOLUS BULBS

RALPH J. POMMERT

Pacific,

Washington.

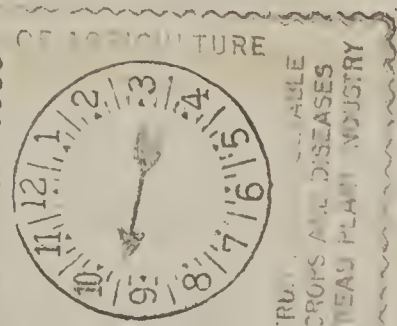

Telegraph address: Auburn, Wash.

To each of my many customers who have helped to make 1937 the most prosperous year of my 15 years in growing gladiolus, - I extend a sincere "Thank you", - "and I do mean you." During the past year I have added thousands of dollars worth of labor-saving equipment to our already well-equipped plant. In this way I hope to receive your continued patronage by giving you the very best quality bulb at as reasonable a price as possible.

Ralph J. Pommert

The prices through-out this list are real "Repression" prices, - the lowest we have ever made on these varieties. Our sales have increased rapidly during the last few years, - thanks to our many customers who have favored us with their business year after year. At this time we find our stock sold down much closer than it has been at this time of year for many years. This in spite of the fact that our planting for 1937 covered 25 acres. For this reason, we advise early orders to insure securing the varieties you want.

SEEDLING NO. 3314

In response to the many inquiries we have received regarding our seedling No. 3314, which was first prize pink seedling and first prize vase at the 1937 Washington State show,- this variety will not be placed on the market until next season. Our stock is still very limited, and we desire to have enough stock to introduce it at a popular price. Watch for it, for, says one of the Pacific coast's most prominent growers: "It sure is a honey."

OUR "REPRESSION SPECIAL"

Buying, as we do, a large number of glads each year for trial, we have accumulated small quantities of a large number of varieties, - old and new, common and rare, good and fair, (the poorest have been thrown away) in all colors and shades. Economy in production requires that we cut down on the number of varieties we are growing. In many of these varieties we have too few bulbs to list them in our price-list. But to growers who are interested in getting a lot of different varieties at bargain prices, we are making this offer:

Send us any amount of money you care to, from \$2.00 up, ask us for our "Depression Special" and we will mail you, postage paid, an assortment of varieties some of which may be on the inclosed list, but many of which will not be. Each variety will be labeled with name and color. Bulbs will be of various sizes. Bulblets will not be included unless requested. We guarantee that you will receive considerably more in value than you can by buying from any catalog, AND, IN ADDITION, we will send free with each \$2.00 of your order for this special, a bulblet of Shirley Temple, listed by all growers at 50¢ each. We will not, of course, make a cent on this offer, but we hope it will bring a great deal of pleasure to many of our amateur customers. We may happen to duplicate some of the varieties you already have, but even if we do you will be getting new bulbs at a very low price.

Order this special at once, as this offer will be withdrawn as soon as our supply of unlisted varieties is exhausted.

.....

Bulb sizes in these lists are standard grading as follows: No. 1 is $1\frac{1}{2}$ inches and up; No. 2 is $1\frac{1}{4}$ to $1\frac{1}{2}$ in.; No. 3 is 1 to $1\frac{1}{4}$ in.; No. 4 is $\frac{3}{4}$ to 1 in.; No. 5 is $\frac{1}{2}$ to $\frac{3}{4}$ in.; and No. 6 is $\frac{1}{3}$ to $\frac{1}{2}$ in. These sizes should all bloom this year, except the No. 6; and many of these will bloom if planted early and given good care. However, the spikes from the smaller sizes will be smaller than spikes from the larger sizes.

All orders of \$5.00 or under are cash with order. Orders over \$5.00 will be accepted 25% with order and balance COD. We offer no fancy discounts for various sized orders, as most of these discounts have been taken care of in our prices. We will add to your order, however, when the size of the order warrants, new varieties for trial.

.....

WASHINGTON CUSTOMERS MUST ADD 2% SALES TAX, OR CERTIFY THAT BULBS ARE FOR RE-SALE or COMMERCIAL CUT-FLOWER PLANTING. Please do not forget this, as we are both subject to prosecution if this tax is not collected from customer.

PLEASE NOTE - All prices on this page are f.o.b. Auburn, Wash., - no charge for packing, but customer pays transportation charges. 250 or more bulbs at the 1,000 rate. 1/2 peck bulblets at the peck rate. A 25% deposit will hold bulbs for future shipment, BUT ONLY BY SPECIAL ARRANGEMENT WILL WE HOLD STOCK LONGER THAN APRIL 1ST.

For eastern shipments of 100 lbs or more, I recommend heated freight service, as it is much cheaper than express. We have daily heated car service to Chicago. The freight rate to all points east of the Mississippi river is \$3.87 per 100 pounds. We have made a great many shipments by heated freight in the last few years, and have not had, as yet, a shipment damaged in transit.

All stock is carefully treated in storage to eliminate any stray thrips. We give no guarantee on germination of bulblets, as this is largely governed by treatment at planting time and growing conditions.

Jobbers or large growers desiring to purchase bulbs in quantity may submit us a list of their needs for special quotations. However, please do not submit us lists of a few hundred of a variety, as we print this price-list to take care of those orders.
